TECHNICAL SKILLS

Languages Swift, C#, JavaScript, TypeScript

Frameworks SwiftUI, UIKit, ASP.NET Core, React, Express.JS

Systems and tools Xcode, .NET, Node.js, SQL Server, Git, GitHub

DevOps Docker, CI/CD

WORK EXPERIENCE

Freelance iOS Developer *from 2020 to present*

- I developed an application for the [Cubernet](#) company, featuring their brand through a captivating web interface. The app ingeniously establishes a VPN connection, enabling users to effortlessly circumvent regional internet restrictions. This ensures seamless access to desired content, regardless of geographic barriers.
- Implemented AprendeMas, a learning platform for students with video capabilities and online tests.
- Implemented Ley109, an application for the study of transit law.
- Implementation and maintenance of LaChopin, an online sales application.

Software Developer at DobleClick Group *from 2020 to 2022*

- Design, implementation, and maintenance of a management system for restaurants DoblePOS.
- Design, implementation, and maintenance a delivery iOS application for restaurants DoblePOS Client.

UX Developer from 2015 to 2020

- Extensive experience implementing branding websites, SPA, PWA using HTML, CSS and JavaScript.

Backend Engineer at CIMEX Corporation from 2013 to 2020

- Implementation and maintenance of a tour and travel application IslaTravel.
- Design, implementation, and maintenance of a package delivery platform called CubaLink that includes inventories, available coupons, shopping cart, online payments, maps for directions and real time package delivery.
- Design and implementation of the branding website and a management system for La Paila restaurant.
- Implemented and maintenance LaPuntilla, an all-inclusive e-commerce platform with inventory, coupons, shopping cart, online checkout, payments, etc.

EDUCATION

Bachelor of Telecommunications and Electronic (5-year Degree), Technological University of Havana Jose A. Echeverria, Havana, Cuba, 2012.
